AS A PACKAGE OR INDIVIDUALLY

DORST
500 TON
TPA 500 H-MP
S/N: 200 141/10

Year: 2001

with

- Three (3) upper & three (3) lower pressing motions in each die set
- Two complete die sets (tool holders) are included with this press
- 500 (metric) ton P/M press technology
- Buy and meet the current precision pressing demands of industry
- Globally known and respected as a high precision DORST brand
- We know of no other press of this type that is on the market anywhere. Act quickly if you can use this press

The powder metal manufacturing operations of a major corporate entity were closed in February 2010. All machinery has been removed and warehoused. These 500 ton, 250 ton and 180 ton presses were used to press precision P/M parts primarily for automotive applications. They are modern and have features rarely found on such presses.

DORST
250 TON
TPA 250H
S/N: 109 531/1

Year: 1994

with

- Two (2) upper and two (2) lower pressing motions in each die set
- Two complete die sets (tool holders) are included with this press
- 250 (metric) ton P/M part pressing force for high production with precision
- No other presses of this type have been offered on the second hand market for a very long time. This is the only press of this type offered anywhere globally

Photographs in this brochure were taken on site prior to dismantling and may show scaffolding and other related components not offered with the presses. The presses are complete but inspection by buyers is encouraged and welcome.

DORST
180 TON
TPA 180
S/N: 453 987

Year: 1999

(DORST Remanufactured)

- DORST sold this press to the previous owner as a DORST remanufactured press in 1999
- One (1) die set (tool holder) with two (2) upper and two (2) lower pressing motions
- A very flexible and precision press complete and ready for production again

The finest offer of pre-owned P/M Machinery is from MOHR Corporation

Presented in this brochure are only *DORST* presses. Mohr sells all makes of pre-owned P/M Presses including hydraulic and mechanical types, of all tonnages.

DORST 15 Ton Model: TPA-15 (Reportedly refurbished in 2005)

The finest offer for one pre-owned DORST Model TPA-15 automatic powder compacting press. DORST is a leading press used for pressing tungsten carbide (hard metal) and other metal powders, technical ceramics, abrasives and many others. This particular press is now installed and surplus to a leading cutting tool manufacturer and has a proven history pressing precision hard rock mining inserts, milling media, wear parts, gripper pads and many other cutting tool products. Specifications include a maximum pressing force and maximum ejection of 20 (short) tons; maximum filling height of 4.33" (inches); speed rating of 12-34 per minute; drive motor of 5.5 hp and compact press dimensions of only 87" high x 40" wide x 71" deep and net weight of 7,100 pounds.

DORST 6 Ton

Model: TPA-6
with PQC 2E
Control

S/N: 255101/10

DORST 6 Ton

Model: TPA-6

S/N: 108972/1

There are two **DORST 6** metric ton presses in this offer only one of which will be sold. The present application is pressing technical ceramic parts and volume does not require both presses in this tonnage. The basic differences are in the controls w/one having a PQC control. The mechanical condition is comparable for both, which are complete & currently in or capable of precision production operation. **RARELY ARE SUCH 6 TON PRESSES OFFERED. BUY NOW.**

**Contact Mohr Corporation for inspection, photographs, price quotations or any other assistance required. Mohr can arrange for proper dismantling, loading and shipment to any location worldwide at very competitive rates.*

**Financial services for leasing or purchase are available to qualified buyers through service providers at Mohr Corporation.*

Mohr also provides machinery to the technical ceramic, abrasive and related process types of industries, where the identical or similar machinery is used. The history of services of the Mohr organization to industry globally is unmatched. You are assured of the most responsible and professional service whether you are buying or selling pre-owned industrial machinery with the Mohr organization.

Mohr sells, values and professionally liquidates:

- P/M Furnaces
- P/M Presses
- CNC Machines
 - Ball Mills
 - Kilns
- And much more...

In the past year alone the Mohr organization has sold many makes of powder compacting and sizing presses in tonnages ranging from 4 to 800 tons by such manufacturers as (listed alphabetically): Alpha, Best Press, Bussmann-Simetag, Cincinnati, Digital Press, Dorst, Hydramet, Gasbarre, Kotaki, Mannesmann-Meer, Metric, Stokes & others. Mohr understands presses & applications for them and sells both mechanical and hydraulic types. Contact Mohr for professional, knowledgeable and responsible support and services.

Mohr is not affiliated with, nor does it speak for the manufacturers of the presses that it appraises or sells for its clients. Mohr does its best to present the presses in the proper manner with all the available details about prior use and present condition. All buyers are encouraged by Mohr to speak with the manufacturers about the presses they are considering purchasing and to seek manufacturer support for after reinstallation services, updates or other on-going services appropriate to the buyer. Inspections by buyer are welcomed.
